FINANCIAL AID

Investing in Your Future

A college education is one of the most important investments you make. You and your family will likely contribute many of your own resources to meet your college expenses.

Kettering College is striving to educate and share ways in which students can make college more affordable. Understanding college finances, which include scholarships and financial aid is an important part of the college decision process.

Financial Aid

The purpose of financial aid is to help you meet educational expenses that cannot be met through your own resources. Financial aid can be need-based or non-need-based. The Free Application for Federal Student Aid (FAFSA) plus the cost of attendance, will determine if you demonstrate financial need.

FAFSA

You can complete your FAFSA application beginning **October 1**. When you complete the FAFSA, you'll receive your Expected Family Contribution (EFC). When completing your FAFSA, include our school code (**007035**).

Scholarships and Grants

Scholarships and grants are a few ways to help reduce the total cost of attendance for students.

Merit-based scholarships are awarded on a competitive basis and are not guaranteed.

Grants are considered gift aid and do not have to be repaid. Most grants are based on some type of need-based eligibility. Therefore, you must complete the FAFSA to apply for most grants. Sources of grants include federal, state, private, and institutional funds. The availability of grants is generally limited to need-based students.
